

Know what needs to be bagged.

Thank you for choosing Dead Bug Edwards for your whole structure fumigation, proven to rid your home of Drywood Termites. To ensure that your fumigation with Sulfuryl Fluoride is compliant, certain steps must be taken to keep food items and other perishable goods protected during the fumigation process. It is important to know exactly which household items need to be double-bagged in special nylon bags.

Sample items that will not require bagging:

- Any food, feed, drugs (including tobacco products) and medicinals in glass, plastic, or metal bottles, jars or cans with the original manufacturer's airtight seal intact.
- Any shampoo and soaps
- Cosmetics, lotions, and any other topical creams, oils, and ointments that are nonmedicinal

Sample items that must be bagged or removed from the structure being fumigated:

Any food, feed, drugs and medicinals in glass, plastic, or metal bottles, jars, or cans where the original manufacturer's airtight seal has been broken

Chips, pasta, bread, cereals, rice, cookies, crackers, and any other items packaged in plastic, paper, or cardboard bags or boxes, even if they have never been opened

Beverages, snacks, sauces, drugs, medicinals or other items in metallic foil-lined containers such as pouches, boxes, or blister packs

Anything in resealable containers, including containers, such as milk, butter, sour cream and cottage cheese

Eggs, fruits, vegetables and any other forms of produce

Medicine, tobacco, vitamins and other ingestible pills, supplements and lozenges

Pet food and animal feed in bags and boxes

Ice cubes should be discarded and the icemaker turned off

Do not forget those items in refrigerators and freezers.

I have received a copy of this document _____ (initial)

When in doubt. Take it out.

Any products not listed above that may require protection should be bagged or removed from the structure being fumigated. If you have any questions about what should be bagged, please contact your local professional pest management company at 954-583-7766 Dead Bug Edwards, Inc.

Dead Bug Edwards . . . Since 1959

The trusted way to protect food, feed, drugs, and medicinals with Sulfuryl Fluoride Fumigations.

All items such as food, feed, drugs and medicinals that require bagging (including those items in refrigerators and freezers).

To ensure a tight seal. Please follow these instructions carefully:

- 1 While bags are still empty, place one inside another.

- 2 Place items inside the inner bag. **DO NOT** overfill- leave clearance on top for closure of the bags.

- 3 Twist the top of the inner bag, fold once and secure the fold in place using tape or a twist tie.

- 4 Repeat Step 3 with the outer bag.

- 5 Check the seal by pressing gently against the sides of the bag and listening for air leaks. No air should be able to escape.

X _____

Important: Keep these and other such bags out of the reach of children.
